Gate Operations

Contact the Reserve at Woodbridge Management at Michael@hightideassociates.com to program your name and phone number into the gate's memory that will allow you to buzz in your visitors.

Regular Operations:

* At call box visitors will press "A" or "Z" to go up or down in the alphabetical order to find your last name.

* Then press "Call"

* You may also give your visitor the code attached to the face of your amenity card. This will ring directly to your registered phone.

* Your phone will ring (Caller ID will say 843-706-9674). Answer it and talk with guest, then press 9

* Gate will open

* Gate closes automatically after visitor drives through

Note: You may have to hit 9 more than once to open the gate. You know the gate is opening when it beeps several times in a row.
